PROFILE

Data-driven operations professional with hands-on experience across cross-border logistics, customs clearance coordination, customer operations, e-commerce platform operations, and operational performance analysis. Experienced in monitoring business and operational KPIs including delivery performance, service-level compliance, customer satisfaction, import volume trends, GMV performance, and merchant operating data to support decision-making and process improvement. Recognized for fast-paced execution, cross-functional coordination, and practical use of AI tools to improve workflow efficiency.

CORE COMPETENCIES

Business Operations	Customer Operations	Supply Chain Coordination
Process Improvement	KPI Monitoring	Operational Reporting
Stakeholder Management	Workflow Optimization	Business Analytics
Customs Clearance	E-commerce Operations	Operational Excellence

PROFESSIONAL EXPERIENCE

Operations Executive | COMONE INT'L LOGISTICS PTE. LTD.

Singapore | Jan 2025 - Present

- Coordinate end-to-end cross-border shipment operations covering import customs clearance, delivery execution, customer order fulfillment, and exception follow-up.
- Manage daily communication with customers, warehouse teams, transportation providers, and customs-related stakeholders to keep time-sensitive logistics activities on track.
- Monitor operational KPIs including delivery performance, customer satisfaction, and monthly shipment volume to identify service issues and support quality improvement.
- Prepare operational reports and analyze recurring workflow bottlenecks, supporting internal process improvements and faster resolution of daily operational delays.
- Support cross-functional coordination across logistics, warehouse, transport, and customer-facing teams to maintain service performance in a fast-paced operating environment.

INTERNSHIP EXPERIENCE

E-commerce Operations Intern | Kuaishou Technology

Beijing, China | Oct 2023 - Jan 2024

- Served as PM for an S+ 11.11 campaign taskforce, tracking livestream, industrial-belt, creator, category, and hero-product metrics; identified execution bottlenecks and supported solutions that helped the team reach 107.2% of target, improving completion by 20.2 pp.
- Owned 0-to-1 merchant acquisition and reactivation operations through SMS campaigns and livestream follow-up; increased mid- and long-tail merchant livestream rate by about 45% MoM, contributed RMB 29M+ daily GMV, and supported a related acquisition project that improved MoM progress by 109%.
- Designed winter apparel category marketing plans, coordinated platform resource allocation, and prepared campaign documents and posters, improving assortment quality while increasing livestream GMV by 6.7 pp.

Product Operations Intern | Digital Hainan Co., Ltd.

Haikou, China | Jul 2023 - Aug 2023

- Supported 0-to-1 prototype and interaction design for education administration application, approval workflows, and mini-program search functions; produced PRDs, user manuals, and review materials.
- Monitored DAU and user feedback, maintained Hai Life mini-program community activities, and built SOPs to support acquisition, retention, and platform engagement.
- Developed a back-to-school welcome-package marketing proposal through user and market research, then coordinated supplier communication and launch follow-up.

Growth Marketing & Operations Intern | Beijing Mafengwo Network Technology Co., Ltd.

Beijing, China | Apr 2023 - Jul 2023

- Independently operated the Weekend brand social account matrix and a private community of 3,300+ users; wrote campaign copy that generated 8,000+ weekly views and improved week-over-week private-domain conversion by 86%.
- Planned and executed brand marketing activities, including a 250+ participant offline social event, and converted post-event review into reusable activity playbooks.
- Managed KOL/KOC collaborations and supported visa livestream operations across departments, adjusting promotion tactics based on feedback data and supporting weekly GMV of about RMB 75K+.

Creator Partnership Operations Intern | Hainan UniFuture Technology Co., Ltd.

Haikou, China | Jan 2023 - Feb 2023

- Supported overseas MCN growth initiatives and a Bilibili overseas KOL onboarding project, bringing in 100+ overseas creators highly relevant to the Genshin Impact IP and achieving the project growth target.
- Built and operated Bilibili creator accounts, planned topics by creator type, launched 46 accounts, and supported video publishing that reached about 30K+ daily views, with selected accounts gaining 1,500+ followers within three days.
- Conducted KOL outreach for overseas brands on TikTok, Instagram, and other international social platforms, supporting promotion, livestream commerce, and partnership communication.
