

JENNIFER FU (JIAQIAN)

BUSINESS OPERATIONS | PRODUCT EXECUTION | DATA-DRIVEN GROWTH | GLOBAL OPERATIONS

Jennyfo1010@gmail.com | 6587962792 | Singapore

PROFESSIONAL SUMMARY

Early-career business operations professional with hands-on experience across global logistics operations, e-commerce growth execution, product operations, customer operations, and business performance analysis. Experienced in managing operational workflows, analyzing KPIs, coordinating cross-functional execution, supporting large-scale campaign operations, and driving process improvement across both fast-growing internet companies and international operational environments.

Strong interest in business operations, operational strategy, data-driven decision making, product systems, and technology-enabled workflow optimization. Recognized for fast learning ability, adaptability across diverse business domains, and strong execution capability in fast-paced environments.

CORE CAPABILITIES

- Business Operations & Process Improvement
- Cross-functional Coordination & Stakeholder Management
- Business Analytics & KPI Monitoring
- Product Operations & Workflow Execution
- E-commerce Platform Operations
- Merchant Growth & Campaign Operations
- Global Supply Chain Execution
- Customer Operations & Service Optimization
- Operational Strategy & Problem Solving
- AI Workflow Optimization

PROFESSIONAL EXPERIENCE

OPERATIONS EXECUTIVE

COMONE INT'L LOGISTICS PTE. LTD. | Singapore Jan 2025 – Present

- Manage end-to-end cross-border operational workflows covering import customs clearance, shipment execution, delivery coordination, customer fulfillment, and operational exception management.
- Coordinate daily execution across customers, warehouse teams, transportation providers, and customs-related stakeholders to maintain service continuity in a fast-paced international operating environment.
- Monitor operational KPIs including delivery performance, shipment volume, service quality, and customer satisfaction metrics while identifying workflow bottlenecks and operational improvement opportunities.
- Prepare operational reports, analyze recurring operational delays, and support internal process optimization initiatives to improve execution efficiency and issue resolution speed.
- Collaborate cross-functionally across logistics, transportation, warehouse, and customer-facing teams while maintaining operational performance under time-sensitive business conditions.

E-COMMERCE OPERATIONS INTERN

Kuaishou Technology | Beijing, China Oct 2023 – Jan 2024

- Selected as project coordinator within a high-priority S+ Double 11 campaign taskforce, responsible for monitoring large-scale business performance metrics including livestream operations, creator activity, category performance, merchant operations, and hero-product execution.
- Identified operational bottlenecks and supported execution strategy adjustments that enabled the campaign to achieve 107.2% target completion, improving overall completion performance by 20.2 percentage points.
- Led 0-to-1 merchant acquisition and merchant reactivation initiatives through SMS campaign execution, livestream follow-up operations, and merchant engagement strategy.
- Increased mid- and long-tail merchant livestream participation rate by approximately 45% month-over-month, directly contributing to operational workflows supporting RMB 29M+ daily GMV generation.
- Supported a merchant acquisition growth initiative that improved month-over-month business progress by 109%, strengthening platform merchant ecosystem expansion performance.
- Designed seasonal category growth strategy for winter apparel vertical, coordinated platform resource allocation, optimized merchant assortment quality, and contributed to a 6.7 percentage point increase in livestream category GMV performance.

GROWTH MARKETING & COMMUNITY OPERATIONS INTERN

Beijing Mafengwo Network Technology Co., Ltd. | Beijing, China

Apr 2023 – Jul 2023

- Managed private community operations for 3,300+ users while supporting growth strategy, campaign execution, and creator partnership operations.
- Improved week-over-week private domain conversion performance by 86% through community engagement and campaign optimization strategy.
- Supported KOL collaboration, brand campaign planning, and cross-functional marketing execution contributing to business growth initiatives.

PRODUCT OPERATIONS INTERN

Digital Hainan Co., Ltd. | Haikou, China

Jul 2023 – Aug 2023

- Supported 0-to-1 product development workflows involving prototype design, PRD writing, interaction design, and user feedback analysis.
- Monitored DAU metrics, maintained community engagement activities, and developed SOP workflows supporting acquisition, retention, and platform optimization initiatives.

CREATOR PARTNERSHIP OPERATIONS INTERN

Hainan UniFuture Technology Co., Ltd. | Haikou, China

Jan 2023 – Feb 2023

- Supported international creator acquisition initiatives, onboarded 100+ overseas creators, and participated in global social platform partnership operations.
- Managed creator account growth operations supporting content publishing performance reaching approximately 30K+ daily views.
